Engagement letter: records digitisation advisory

To The Board, Eastfield Housing Trust (fictitious)
Date 28 October 2026
Our ref. OVA/2026/031
Status Draft v3 for discussion

Dear members of the Board,

Thank you for asking Orrin Vale Advisory to support the Trust in digitising its tenancy and property records. This letter sets out the scope of our work, the deliverables, our fees and the terms that apply. Please read it carefully and sign it if you agree.

1 Background

The Trust keeps about 9,400 tenancy files and 1,150 property files on paper at its head office. The files are needed for day-to-day housing management and must be kept for six years after a tenancy ends. The Trust wants to scan the files, move to an electronic records system and free the archive room by the end of 2027.

2 Scope of the engagement

- Review the current filing practice and the retention rules that apply to each type of file.
- Prepare a specification for the scanning service and the electronic records system.
- Support the Trust during the procurement of both services, including the evaluation of the tenders.
- Prepare a migration plan, including a pilot with 300 files and the training of staff.

The scope does not include the scanning itself, the configuration of the records system or legal advice on data protection. We can quote for these separately.

3 Deliverables

Deliverable	Due
Review of filing practice and retention rules	8 January 2027
Specification for scanning and records system	12 February 2027
Tender evaluation report	30 April 2027
Migration plan and pilot report	25 June 2027

4 Fees and expenses

Our fixed fee for the scope above is EUR 18,500, excluding VAT. We invoice the fee in four equal parts, each on delivery of one of the deliverables listed in section 3. Travel expenses are charged at cost up to

DRAFT

a cap of EUR 1,200 for the whole engagement.

If the Trust asks for work outside the scope, we agree the fee for it in writing before we start. Our day rate for such work is EUR 980.

5 Timetable and team

We start on 23 November 2026 and expect to complete the engagement by the end of June 2027. The engagement is led by a director, who attends the Board meetings at which the deliverables are discussed, supported by a records manager and an analyst.

6 Responsibilities of the Trust

The Trust names a project lead who has the authority to take day-to-day decisions, gives our team access to the archive room and to the staff who use the files, and provides the information we ask for within five working days. Delays in providing information may move the due dates in section 3.

7 Terms

Our standard terms of business apply and are attached. Our liability is limited to three times the fee. Either party may end the engagement with one month's written notice; in that case we invoice the work done up to the end of the notice period.

We will treat all information we receive from the Trust as confidential and use it only for this engagement. We do not take original files away from the Trust's premises.

8 Acceptance

Please sign and return one copy of this letter. We look forward to working with the Trust.
