Project status report - Q3 (synthetic)

Line 1: the works package progressed as planned; the next milestone is the design review.
Line 2: the works package progressed as planned; the next milestone is the design review.
Line 3: the works package progressed as planned; the next milestone is the design review.
Line 4: the works package progressed as planned; the next milestone is the design review.
Line 5: the works package progressed as planned; the next milestone is the design review.
Line 6: the works package progressed as planned; the next milestone is the design review.
Line 7: the works package progressed as planned; the next milestone is the design review.
Line 8: the works package progressed as planned; the next milestone is the design review.
Line 9: the works package progressed as planned; the next milestone is the design review.
Line 10: the works package progressed as planned; the next milestone is the design review.
Line 11: the works package progressed as planned; the next milestone is the design review.
Line 12: the works package progressed as planned; the next milestone is the design review.
Line 13: the works package progressed as planned; the next milestone is the design review.
Line 14: the works package progressed as planned; the next milestone is the design review.
Line 15: the works package progressed as planned; the next milestone is the design review.
Line 16: the works package progressed as planned; the next milestone is the design review.
Line 17: the works package progressed as planned; the next milestone is the design review.
Line 18: the works package progressed as planned; the next milestone is the design review.
Line 19: the works package progressed as planned; the next milestone is the design review.
Line 20: the works package progressed as planned; the next milestone is the design review.
Line 21: the works package progressed as planned; the next milestone is the design review.
Line 22: the works package progressed as planned; the next milestone is the design review.
Line 23: the works package progressed as planned; the next milestone is the design review.
Line 24: the works package progressed as planned; the next milestone is the design review.
Line 25: the works package progressed as planned; the next milestone is the design review.
Line 26: the works package progressed as planned; the next milestone is the design review.
Line 27: the works package progressed as planned; the next milestone is the design review.
Line 28: the works package progressed as planned; the next milestone is the design review.
Line 29: the works package progressed as planned; the next milestone is the design review.
Line 30: the works package progressed as planned; the next milestone is the design review.

2. Work package status

The status of each work package is shown below with its owner and the date of the next review 1.
The status of each work package is shown below with its owner and the date of the next review 2.
The status of each work package is shown below with its owner and the date of the next review 3.
The status of each work package is shown below with its owner and the date of the next review 4.

Work package	Owner	Next review	Status
WP1 Site survey	A. Owner	2027-02-01	on track
WP2 Drainage design	B. Owner	2027-03-15	at risk
WP3 Road surfacing	C. Owner	2027-04-10	on track
WP4 Lighting	D. Owner	2027-05-20	on track
WP5 Landscaping	E. Owner	2027-06-30	late
WP6 Handover	F. Owner	2027-07-31	on track

Notes 1: the owners confirmed the dates above at the monthly progress meeting.
Notes 2: the owners confirmed the dates above at the monthly progress meeting.
Notes 3: the owners confirmed the dates above at the monthly progress meeting.
Notes 4: the owners confirmed the dates above at the monthly progress meeting.
Notes 5: the owners confirmed the dates above at the monthly progress meeting.
Notes 6: the owners confirmed the dates above at the monthly progress meeting.
