1 Introduction

This plan sets out how the utility will maintain and renew its assets over the next ten years. Each zone profile lists the assets, their age and their condition grade.

In response to consultation feedback, this version also sets out how progress against the plan will be reported to customers each year, with a short summary of the schemes completed.

2 Zone group 1

Zone group 1 is supplied from two treatment works. The assets below are inspected every year and their condition is graded from 1 (very good) to 5 (very poor).

Zone	Asset class	Quantity	Median age (years)	Condition grade
North 1	Trunk mains	21	12	1
East 1	Service reservoirs	28	19	2
South 1	Pumping stations	35	26	3
West 1	Hydrants	42	33	4
Central 1	Trunk mains	49	40	5
Harbour 1	Service reservoirs	56	47	1
Hill 1	Pumping stations	63	14	2
Lake 1	Hydrants	70	21	3
Mill 1	Trunk mains	77	28	4
Park 1	Service reservoirs	84	35	5
Quay 1	Pumping stations	91	42	1
Ridge 1	Hydrants	98	49	2
Vale 1	Trunk mains	105	16	3
Wharf 1	Service reservoirs	112	23	4

3 Zone group 2

Zone group 2 is supplied from two treatment works. The assets below are inspected every year and their condition is graded from 1 (very good) to 5 (very poor).

Zone	Asset class	Quantity	Median age (years)	Condition grade
North 2	Trunk mains	24	13	2
East 2	Service reservoirs	32	20	3
South 2	Pumping stations	40	27	4
West 2	Hydrants	48	34	5
Central 2	Trunk mains	56	41	1
Harbour 2	Service reservoirs	64	48	2

Zone	Asset class	Quantity	Median age (years)	Condition grade
Hill 2	Pumping stations	72	15	3
Lake 2	Hydrants	80	22	4
Mill 2	Trunk mains	88	29	5
Park 2	Service reservoirs	96	36	1
Quay 2	Pumping stations	104	43	2
Ridge 2	Hydrants	112	50	3
Vale 2	Trunk mains	120	17	4
Wharf 2	Service reservoirs	128	24	5

4 Zone group 3

Zone group 3 is supplied from two treatment works. The assets below are inspected every year and their condition is graded from 1 (very good) to 5 (very poor).

Zone	Asset class	Quantity	Median age (years)	Condition grade
North 3	Trunk mains	27	14	3
East 3	Service reservoirs	36	21	4
South 3	Pumping stations	45	28	5
West 3	Hydrants	54	35	1
Central 3	Trunk mains	63	42	2
Harbour 3	Service reservoirs	72	49	3
Hill 3	Pumping stations	81	16	4
Lake 3	Hydrants	90	23	5
Mill 3	Trunk mains	99	30	1
Park 3	Service reservoirs	108	37	2
Quay 3	Pumping stations	117	44	3
Ridge 3	Hydrants	126	51	4
Vale 3	Trunk mains	135	18	5
Wharf 3	Service reservoirs	144	25	1

5 Zone group 4

Zone group 4 is supplied from two treatment works. The assets below are inspected every year and their condition is graded from 1 (very good) to 5 (very poor).

Zone	Asset class	Quantity	Median age (years)	Condition grade
North 4	Trunk mains	30	15	4
East 4	Service reservoirs	40	22	5

Zone	Asset class	Quantity	Median age (years)	Condition grade
South 4	Pumping stations	50	29	1
West 4	Hydrants	60	36	2
Central 4	Trunk mains	70	43	3
Harbour 4	Service reservoirs	80	50	4
Hill 4	Pumping stations	90	17	5
Lake 4	Hydrants	100	24	1
Mill 4	Trunk mains	110	31	2
Park 4	Service reservoirs	120	38	3
Quay 4	Pumping stations	130	45	4
Ridge 4	Hydrants	140	12	5
Vale 4	Trunk mains	150	19	1
Wharf 4	Service reservoirs	160	26	2

6 Zone group 5

Zone group 5 is supplied from two treatment works. The assets below are inspected every year and their condition is graded from 1 (very good) to 5 (very poor).

Zone	Asset class	Quantity	Median age (years)	Condition grade
North 5	Trunk mains	33	16	5
East 5	Service reservoirs	44	23	1
South 5	Pumping stations	55	30	2
West 5	Hydrants	66	37	3
Central 5	Trunk mains	77	44	4
Harbour 5	Service reservoirs	88	51	5
Hill 5	Pumping stations	99	18	1
Lake 5	Hydrants	110	25	2
Mill 5	Trunk mains	121	32	3
Park 5	Service reservoirs	132	39	4
Quay 5	Pumping stations	143	46	5
Ridge 5	Hydrants	154	13	1
Vale 5	Trunk mains	165	20	2
Wharf 5	Service reservoirs	176	27	3
