Maintenance schedule for the north building. Routine inspections take place every quarter and cover heating, ventilation and the fire alarm system.

The contractor must arrive on site within four hours of the call. The fee is USD 12,000 per year.

Invoices are paid within thirty days of receipt. Disputed amounts are held until the facilities manager confirms the work.

The contract runs for two years and renews automatically unless either party gives notice at least ninety days before the end of the term.

Spare parts that are not on the stock list are ordered after written approval. Delivery normally takes ten working days.

Approved by the facilities manager

Keys to the plant rooms are kept at the security desk and signed out for each visit. Lost keys are replaced at the cost of the contractor.

Waste oil and used filters are taken away by a licensed carrier. The carrier issues a transfer note that is kept with the visit log.

Payment is overdue since 3 March

The contract runs for two years and renews automatically unless either party gives notice at least ninety days before the end of the term.

Keys to the plant rooms are kept at the security desk and signed out for each visit. Lost keys are replaced at the cost of the contractor.

Emergency call-outs are answered around the clock by the duty engineer.
hours of work are logged at the desk.

Waste oil and used filters are taken away by a licensed carrier. The carrier issues a transfer note that is kept with the visit log.
